## EcoFlow Introduction

---

EcoFlow is a leading company in eco-friendly energy solutions with the vision to power a new world. Since its founding in 2017, EcoFlow has become a reliable and trusted energy companion for individuals and families across the world, providing accessible and renewable power solutions for homes, outdoors, and off-grid living. Today, with operational headquarters located in the USA, Germany, and Japan, EcoFlow has empowered more than 2 million users in over 100 regions worldwide.

## Cooling for up to 40 hours wire-free

Designed for absolute portability, GLACIER can be powered by the Plug-in Battery and free from messy, limiting cables. With a large battery capacity of 298Wh, savour up to 40 hours. With 100W max USB-C charging, it even powers up your phones and laptops.

## A fridge-freezer at its best

Equipped with a removable divider separating it into two zones, and independent temperature control, both sections can refrigerate and freeze from 50°F (10°C) to -13°F (-25°C). Whatever you want to stock up on, it shape-shifts to meet your needs.

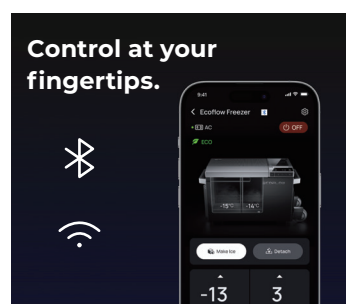

\*Cooling at the optimum speed when empty

## Industry's first integrated ice maker

Equipped with a powerful 120W compressor, it brings you 18 solid ice cubes in 12 minutes. For all the spine-tingling moments along your journey, spice them up with chilled fizzy drinks.

\*This result was achieved with an ambient temperature of 77°F (25°C) and a water temperature of 59°F (15°C). The first round of ice-making may take longer than 12 minutes.
